Procedure for Conversion:

- The contents of this kit are parts numbered 1-4 only
- Replace all parts shown in Figure 1 with parts 1-4, in the following order.
- Place the control knob onto the shaft followed by the metal spacer
- Secure these by gently tapping a push-on-fix onto the shaft until it sits against the metal
- Repeat this operation with the second push-on-fix
- Fit the control knob insert
- Figure 2 shows the order in which the components are fitted
